

Session Program

26-29 Jun 2017

EUROPEAN STEEL TECHNOLOGY AND APPLICATION DAYS 2017 - ESTAD 2017

Gas Cleaning

Tuesday 27 June

16:10

Gas Cleaning

Session | **Location:** Room 2.91

16:10–16:30

Towards a cleaner future - Trends in gas cleaning technology for ironmaking

Speaker

Mr Andreas Steinwandter

16:30–16:50

Gas odorization technology for toxic gas leaks detection in the steel industry

Speaker

Mrs Marta Santorroman

16:50–17:10

Information on carcinogenic substances in steel casting ladles

Speaker

Mr Alexey Kotchin

17:10–17:30

Advantages of Axial Cyclone Vs inertial spark arresters along the EAF secondary ducts: field experience and future developments through CFD analysis

Speaker

Mr Marco Peter Cudicio

17:30–17:50

Enhancement of the EAF dust recycling in self-reducing briquettes by controlling their hydration behaviour

Speaker

Mr Marcel Dormann

17:50
