

Session Program

26-29 Jun 2017

EUROPEAN STEEL TECHNOLOGY AND APPLICATION DAYS 2017 - ESTAD 2017

Slags

Thursday 29 June

08:30

Slags

Session | **Location:** Room G2

08:30-08:50

Boosting the value of your steelmaking slag and dust

Speaker

Mr Gerald Wimmer

08:50-09:10

Valorisation of slag and by products from EAF-metallurgy - NoWASTE a feasible way to go?

Speaker

Mr Henning Schliephake

09:10-09:30

Factors of influence during and after the electric steel making process: Characterization and optimization of electric arc furnace slag

Speaker

Mr Dirk Mudersbach

09:30-09:50

Influence of basicity on chromium leaching of low alloy EAF slag

Speaker

Mrs Ida Strandkvist

09:50-10:10

Modelling of basic oxygen furnace slag treatment and processing in order to evaluate possibility of their reuse

Speaker

Mr Ismael Matino

10:10

10:40

Slags

Session | **Location:** Room G2

10:40-11:00

Recycling of blast furnace sludge by hydrometallurgy process

Speaker

Ms ANA-MARIA IOSIF

11:00
