

Session Program

26-29 Jun 2017

EUROPEAN STEEL TECHNOLOGY AND APPLICATION DAYS 2017 - ESTAD 2017

***Measurement technologies in Secondary
metallurgy - Dissemination of results from
European research projects (DissTec)***

Thursday 29 June

14:00

Measurement technologies in Secondary metallurgy - Dissemination of results from European research projects (DissTec): Seminar

Session | Location: Room G2

14:00–14:20

Overview on DissTec project and introduction into topic "Measurement technologies in Secondary Metallurgy"

Speaker

Mr Bernd Kleimt

14:20–14:40

SecMet Measurement technologies in ECSC and RFCS research projects - an overview

Speaker

Mr Tobias Kordel

14:40–15:00

Measuring of liquid steel temperature in secondary metallurgy

Speaker

Mr Torsten Lamp

15:00–15:20

Online Measurement of dissolved gasses in secondary metallurgy

Speaker

Mr Bartek Wisniewski

15:20–15:40

Fast analysis of slag chemistry during secondary metallurgy

Speaker

Mr Jean-Christophe Pierret

15:40–16:00

On-line measurement of steel cleanliness using rapid inclusion characterisation techniques

Speaker

Mr Stuart Millman

16:00
