

Session Program

26-29 Jun 2017

EUROPEAN STEEL TECHNOLOGY AND APPLICATION DAYS 2017 - ESTAD 2017

Cost & Process Control

Tuesday 27 June

14:00

Cost & Process Control

Session | Location: Room 2.32

14:00-14:20

An agent based approach for steel industries for exploitation of opportunities and challenges provided by energy markets

Speaker

Ms Francesca Marchiori

14:20-14:40

TSL KPO BF 1 - Design, commissioning and start-up

Speaker

Mr Martin Schmith

14:40-15:00

Off the beaten path: New condition monitoring applications in steel making

Speaker

Mrs Anna Mayrhofer

15:00-15:20

Optimizing OPEX for steel plants - Improve process control and energy efficiency

Speaker

Mr Wolfgang Linden

15:20-15:40

Cleanliness measurement and control using innovative LIBS method

Speaker

Mr GUY MONFORT

15:40

16:10

Cost & Process Control

Session | Location: Room 2.32

16:10-16:30

Comprehensive competence in beneficiation technologies - from the raw materials to steel

Speaker

Mr Jan Martens

16:30-16:50

Integrated steel plant optimization in flow sheeting process integration platform

Speaker

Mr Bernd Weiss

16:50
