

Session Program

26-29 Jun 2017

EUROPEAN STEEL TECHNOLOGY AND APPLICATION DAYS 2017 - ESTAD 2017

Long Products

Tuesday 27 June

17:10

Long Products

Session | **Location:** Room K1

17:10–17:30 **Forging-like rolling with high reduction of SBQ long products**

Speaker

Mr Francesco Toschi

17:30–17:50 **Dynamic cooling control system of high strength steel wire rod**

Speaker

Mr Shih-Chuan Yu

17:50

Wednesday 28 June

08:30

Long Products

Session | **Location:** Room K1

08:30–08:50

Modernization of the Kroman wire rod mill to increase productivity, utilization and product quality

Speaker

Mr Wade Krejdovsky

08:50–09:10

LLR Rolls - New design concept for composite rolls and innovative ring locking system

Speaker

Mr Matteo Tomba

09:10–09:30

New sizing stands for bar and wire rod mills, to achieve tighter tollerances - the BSS stands

Speaker

Mr Matteo Tomba

09:30–09:50

The production of railway rails in modern and efficient plants - The new ARBZ rail mill

Speaker

Mr Francesco Toschi

09:50–10:10

The journey of one square millimeter wire surface

Speaker

Mr Raimund Fritz

10:10
