

8th International Congress on Science and Technology of Ironmaking - ICSTI 2018

25 September 2018 - 28 September 2018

Schloss Schönbrunn

Scientific Programme

The Congress will bring together a wide range of experts, coming from plant operation, plant suppliers and research institutes, who share expertise in:

Cokemaking

Iron ore production and handling

Sintering

Pelletising

Blast furnace ironmaking

Direct reduction

Smelting reduction

Environmental control in coke and ironmaking

CO₂ reduction and energy saving

Recycling of in-plant residues

Automation and digitalization in coke and ironmaking

Modelling and simulation in coke and ironmaking

Keynote

Poster
