

Session Program

26-29 Jun 2017

9th ECCC European Continuous Casting Conference - ECCC 2017

Clean Steel

Austria Center Vienna
Bruno-Kreisky-Platz 1 1020 Vienna Austria

Thursday 29 June

14:00

Clean Steel

Session | **Location:** Austria Center Vienna, Room L8, Bruno-Kreisky-Platz 1 1020 Vienna Austria | **Convener:** Dr Youn-Bae Kang

14:00–14:20

Relationship between oxidic slivers defects on direct rolled Ca treated steel and deposits formed inside the SEN during casting

Speaker

Mr Enno Zinngrebe

14:20–14:40

Investigation on interfacial tension between the slag and initial solidification shell affecting sliver defects

Speaker

Mr Ho-yeol Lee

14:40–15:00

Oscillation marks and subsurface hooks in continuous casting slabs of ultra-low-carbon steel

Speakers

Mr Lifeng ZHANG, Mr Xubin ZHANG

15:00–15:20

Grain refinement of solidification structure by direct inoculation

Speaker

Mr Seong-beum Kim

15:20–15:40

Influence of rice husk ash on the reoxidation of molten steel in continuous casting tundish

Speaker

Mr TAE-SUNG KIM

15:40
