

Session Program

26-29 Jun 2017

9th ECCC European Continuous Casting Conference - ECCC 2017

Submerged entry nozzle

Austria Center Vienna
Bruno-Kreisky-Platz 1 1020 Vienna Austria

Thursday 29 June

08:50

Submerged entry nozzle: New developments and simulation

Session | **Location:** Austria Center Vienna, Room L8, Bruno-Kreisky-Platz 1 1020 Vienna Austria | **Convener:** Gernot Hackl

08:50–09:10

Energy saving Monolithic ISO Components for Flow-Control and Clean-Steel

Speaker

Mr Gerald Nitzl

09:10–09:30

Ultrasonic measurements in a model experiment for continuous casting of round blooms with magnetic stirring in the submerged entry nozzle

Speaker

Mr Dennis Schurmann

09:30–09:50

Influence of the free surface oscillation on the SEN flow prediction for the thin slab casting

Speaker

Mr Alexander Vakhrushev

09:50–10:10

Simulations to design thin slab casting SEN and the SEN's applications at work

Speaker

Mr Sangbae Choi

10:10
