

## **Session Program**

**26-29 Jun 2017**

# **9th ECCC European Continuous Casting Conference - ECCC 2017**

## ***Mold flux technologies II***

Austria Center Vienna  
Bruno-Kreisky-Platz 1 1020 Vienna Austria

## Wednesday 28 June

16:10

### Mold flux technologies II

**Session** | **Location:** Austria Center Vienna, Room L8, Bruno-Kreisky-Platz 1 1020 Vienna Austria | **Convener:** Cho Jung-Wook

16:10–16:30

#### Investigation of mold slag film sampled right below meniscus

**Speaker**

Mr Hongbin Yin

16:30–16:50

#### Slag rim formation of two mold powders used for casting of construction steel

**Speaker**

Mrs Irmtraud Marschall

16:50–17:10

#### Study on thermal properties of a low fluorine mold flux

**Speaker**

Mr Marco Alloni

17:10–17:30

#### Effect of CaO/Al<sub>2</sub>O<sub>3</sub> ratio on steel-slag interaction for high-Al steel casting

**Speaker**

Mr Mustafa Seyrek

17:30–17:50

#### Novel techniques for controlling heat transfer in the mould-strand gap

**Speaker**

Mr Adam Hunt

17:50
