

Conference on Abrasion Wear Resistant Cast Iron And Forged Steel For Rolling and Pulverizing Mills - ABRASION 2024

8 September 2024 - 10 September 2024

**Wyndham Grand Salzburg Conference
Center**

Scientific Programme

Fundamental research and application on metallurgy, solidification and solid state transformations including heat treatment behaviour

Physical and thermo-mechanical properties

Mechanical properties including abrasive wear resistance

Deterioration of rolls and its countermeasure

Recent situation on applications for rolls of steel rolling and mineral pulverizing mills
