

## **Session Program**

**12-13 Mar 2026**

### **3rd International Workshop Surface quality of continuously cast products - IWSQ-3**

### **SURFACE QUALITY OF LONG AND FLAT SEMIS: PLANT RESULTS AND LAB EXPERIMENTS**

Hotel Weitzer Graz  
Grieskai 12/14, 8020 Graz

Friday 13 March

08:30

SURFACE QUALITY OF LONG AND FLAT SEMIS: PLANT RESULTS AND LAB EXPERIMENTS

Session | Location: Hotel Weitzer Graz, Grieskai 12/14, 8020 Graz

08:30-08:55

Effect of EMS Parameters on Surface and Subsurface Defects in Continuous Casting

Speaker

Carlo Mapelli

08:55-09:20

Influence of Mold Level Control Dynamics on Billet Surface Quality: A Quantitative Analysis

Speaker

Cosmo Di Cecca

09:20-09:45

Development of optimized continuous casting process for zero-defect round blooms production in high silicon 54SiCr6 automotive spring steel. Production trials in Acciaierie Bertoli Safau S.p.a

Speaker

Sara Busolini

09:45-10:10

Effect of Mn/S ratio on surface quality in continuous casting of steel

Speaker

Takuya Takayama

10:10
