

Session Program

10-12 Nov 2026

Metal Additive Manufacturing Conference - MAMC 2026

AM of Refractory Metals - Highlight Session

Arcotel Wimberger
Arcotel Wimberger, Vienna/ Austria

Tuesday 10 November

13:30

AM of Refractory Metals - Highlight Session

Session | **Location:** Room 1

13:30–14:00

Additive Manufacturing of Refractory Metals - Status, Challenges, and Outlook

Speaker

Dr Bernhard Mayr-Schmoelzer

14:00–14:20

Additive Manufacturing of Molybdenum: Defect Mechanisms and Alloying Strategy for Fully Dense and Crack-free Molybdenum Parts by PBF-LB/M

Speaker

Dr Jakob Braun

14:20–14:40

MoC0.4 - From Lab to Industry in PBF-LB of C-alloyed Molybdenum

Speaker

Benedikt Distl

14:40–15:00

Additive Manufacturing of Tungsten: Challenges and Solutions in Laser PBF

Speaker

Prof. Lukas Kaserer

15:00–15:20

Optimizing Additive Manufacturing of Niobium: A Pathway to Advancing Superconducting Technologies

Speaker

Daniel Pattis

15:20
