

Session Program

10-12 Nov 2026

Metal Additive Manufacturing Conference - MAMC 2026

Sinter based MAM Processes

Arcotel Wimberger
Arcotel Wimberger, Vienna/ Austria

Tuesday 10 November

15:50

Sinter based MAM Processes

Session | **Location:** Room 2

15:50-16:10

Photolithographically manufactured components made of stainless steel and copper - A comparison of the processes

Speaker

Prof. Christian Gierl-Mayer

16:10-16:30

Multiphysics Modeling of Shell Printing in Binder-Jetted 17-4PH Stainless Steel

Speaker

Mr Ziping Sang

16:30-16:50

Feedstock Roller Formation in Lithography-based Metal Manufacturing

Speaker

Atul Anand

16:50-17:10

Sinter-based Additive Manufacturing of Stainless Steel - Debinding and Sintering Strategies for FFF and LMM Samples

Speaker

Alexander Holzer

17:10
