

Session Program

10-12 Nov 2026

Metal Additive Manufacturing Conference - MAMC 2026

Recent Research Topics

Arcotel Wimberger
Arcotel Wimberger, Vienna/ Austria

Wednesday 11 November

13:30

Recent Research Topics

Session | Location: Room 2

13:30-13:50

Concrete Application of the 3D Master-based Method for Optimizing the Cost Calculation of PBF-LB/M Manufactured Parts

Speaker

Dr Briac Lanfant

13:50-14:10

Optimized Non-Contact Support Design for Low-Angle Overhangs in Ti-6Al-4V Laser Powder Bed Fusion

Speaker

Ohseop Kim

14:10-14:30

Developing a Hybrid Powder-wrought Hardened Stainless Alloy Steel Using the Laser Powder Bed Fusion Process for Injection Moulding Tool Applications

Speaker

Dr Simon Chan

14:30-14:50

Root Cause Investigation of Dimensional Deviations in Precision CNC Machining of Additively Manufactured Components Using Support Structures as Fixtures

Speaker

Mustafiz Shaikh

14:50
